

Our Services:

Digital Printing

At Rockpoint Logistics, we offer smart, cost-effective solutions for clients with a variety of printing needs. Our in-house digital print shop produces a wide range of finished goods including perfect-bound books, saddle-stitched booklets, laminated covers, twin-looped bound books and much more.

Digital printing solutions are a perfect fit for short print runs, backlist reprints, fulfillment of unplanned spike orders and other time-sensitive jobs requiring an extremely fast turnaround. Production-quality proofs can be created quickly and provide you with an accurate representation of the quality of the finished product.

Using only the highest-quality digital printers, our print shop is able to provide a finished product that rivals even the best offset printers, often using a simple PDF file. Our printing department is staffed by skilled professionals who subject every print job to a host of quality inspections to ensure that your documents are printed, bound, and finished according to your exact specifications. Each job is thoroughly inspected before being placed into stock or shipped to its final destination.

In addition to low unit cost, Rockpoint can help clients design a comprehensive production program that will maximize order fill rates, reduce warehousing storage costs, achieve shorter reprint schedules, reduce spending and preserve cash while minimizing the risk of overprinting and inventory write-offs.

In order to deliver the highest quality product at the lowest cost, our print operation is run as a partnership between Rockpoint and Edwards Brothers, Inc. a leader in book, journal and catalog manufacturing specializing in short and ultra-short runs for publishers, authors, scholarly societies, industrial firms, universities, and others.

Our services include:

- Perfect-Bound Books up to 900 Pages
- Saddle-Stitched Books up to 68 Pages
- Three-Hole Drilling
- Flyers
- Gloss Lamination
- Four-Color Covers
